# Create Inspiring Interiors™

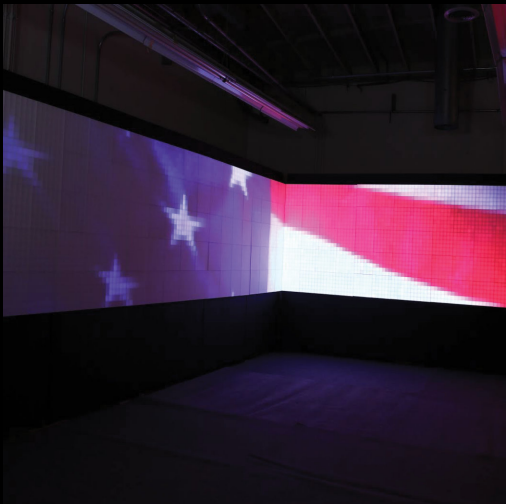

## Applications

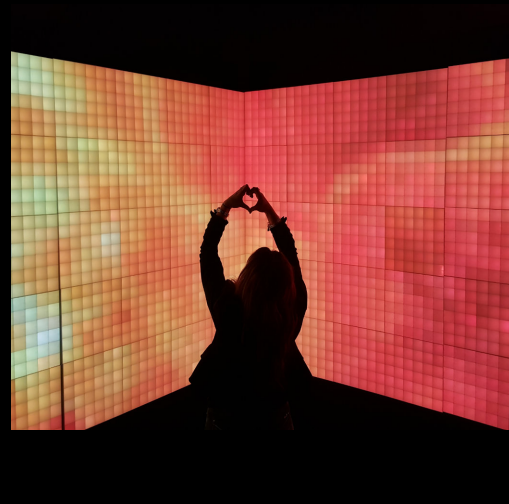

*Restaurants*

*Public Spaces*

*Corporate Interior*

*Hospitality*

*Retail*

*Tradeshow Exhibits*

# *Integrated System*

Lellan's DigitalCanvas allows you to infuse any interior space with color, light and motion and interact with people occupying that space. It is now easy to create a lasting impression, elevate your brand or dramatically change your working environment with an artistic lightscape. The system is fully integrated, easy to install and simply controlled - with no need for fancy control systems or excessive cabling.

■ Modular Design - allows for easy installation and free-form designs.

■ Turnkey System - a single simple platform saves money and time.

■ Flexible Control - with any wired or wireless device and the Lellan App.

■ Content - can be downloaded and stored through integrated cloud community.

*Lellan, Inc. is a Silicon Valley technology company developing solutions to empower trendsetting establishments to create unique and memorable ambiance through dynamic, customizable and interactive interior designs.*
